

TFSR2024

The TFSR2024 project is based in Zambia and is supported by Reading Meeting.

Tools for Self Reliance are working with the Prisoners Future Foundation in Zambia to provide a comprehensive training and support package for prisoners to reduce reoffending. The project will deliver vocational training to 50 prisoners in Mumbwa prison. Prison officers will also receive training as trainers, with the aim of continuing to deliver the training after the project has ended. As well as vocational skills, participants will receive training in market analysis and business planning, sexual and reproductive health and rights, and personal rehabilitation and family reunification. Participants will be given the opportunity to interact with the local Mumbwa community to try to break down pre-conceived ideas around ex-inmates, and display the skills they have learned by fixing schools desks, school buildings, general maintenance tasks, and producing school uniforms.
